

Reducing the Risk of a COVID-19 Outbreak is Crucial to Your Business

At Deluxe, we are continuously improving our software in order to exceed international safety standards. Below are features we have added to our existing software platform in order to help you create a safer workplace environment for you and your employees.

Applicant Tracking, Hiring and Onboarding

- Electronic application process with text messaging communication capabilities
- Interview candidates online via video conferencing or easily over the phone
- Remote onboarding of employees including delivery, completion and storage of all provincial, federal and new hire documentation

Time & Attendance

- Voice control, hands-free clocking in/out at the iPad time clocks
- Extra, Covid-19 symptom related screening questions available to add to employee clock in screen (please see image below)
- Communication and notifications can be sent directly to an employee's mobile device at any time, even when they are not on the clock
